EXPERIENCE

Oct 2024 – Present **Programs Officer / Hebron Hub Manager & Tech Expert, Full-Time**, Intersect Innovation Hub (Powered by Bank of Palestine), Palestine.

- Supervised and worked closely on 35+ MVPs across various industries transforming early-stage ideas into functional, investor-ready products (e.g., Students Hub, Rasool (Wessaal), Wahj, Rouh).
- Contribute to the development and technical implementation of the Thrivetk.com platform.
- Design and maintain incubation program systems (including STIR and OCIF), focusing on data structuring, workflow automation, and performance tracking using Airtable.
- Serve as Hebron Hub Manager, overseeing day-to-day operations, space management, startup coordination, and business communication.
- Provide ongoing technical mentorship and architecture guidance to startups, supporting backend, frontend, and deployment decisions.
- Support startups beyond development by refining product strategy, growth planning, and ecosystem connections, helping projects gain traction and thrive post-launch.
- Leveraged: Joget, Ngnx, FastAPI, Django, Tailwind CSS, API Handling, MySQL, Mongodb, React.js, Next.js and Docker.

Feb 2026 – Jul 2026 **Project lead, Part-Time**, Wahj, Palestine.

- Managed the project as Wahj's main contact: gathered requirements, set the plan, assigned and tracked the team's tasks, led a team of 4 developers, and review code.
- Leveraged: Tailwind CSS, API Handling, Postgresql, React.js, Next.js and Docker.

Apr 2024 – Oct 2024 **Founder and Full-Stack Developer, Full-Time**, Sharkod, Palestine.

- Founded and led Sharkod, focusing on building HR management systems for businesses.

- Primarily responsible for the back-end architecture using Node.js, Express.js, and PostgreSQL, while also contributing to front-end development .
- Managed a team of two developers, ensuring the timely delivery and continuous improvement of the system.
- Leveraged: React.js, Next.js, Redux-toolkit, Syncfusion for UI Components, Tailwind CSS, Node.js, Express.js, API Handling, PostgreSQL, and AWS S3.

Jan 2024 – Apr 2024 **Software Project Lead and Coordinator, Full-Time**, DoOption Startup & Rytsensetech, Palestine and India (remote).

- Contributed as a key member of a 5-developer team in the development of a large-scale trading platform similar to Pocket Option and Expert Option.
- Managed the design and implementation of front-end components in React.js, focusing on user experience and performance.
- Conducted weekly meetings to review development progress and evaluate the Indian team's achievements, ensuring adherence to project milestones.
- Leveraged: React.js, Redux-toolkit, Syncfusion for UI Components, .NET, API Handling, Polygon.io and Tailwind CSS.

Sept 2023 – Feb 2024 **Full Stack Developer, Full-Time**, TurboGrading Inc., Ontario, Canada.

- Worked on the development of a website system supporting AI services, focusing on subscription management, secure payments, and activity tracking.
- Involved in creating a user-friendly platform using React.js and Next.js that facilitates access to AI services.
- Developed a Chrome extension to enhance technological capabilities to enhance exam processing efficiency for D2L exam platform.
- Architecting and implementing robust back-end APIs using Node.js and Express.js to deliver essential services on the website.
- Leveraged: React.js, Next.js, Node.js, Express.js, PostgreSQL, API Handling, payment gateway - Stripe, Jira, and Bootstrap.

June 2022 – Apr 2023 **Software Engineer, Intern**, Palestine.

- **PalSoft Company** (Mar 2023 – Apr 2023): Collaborated with a team of 3 developers developed front-end, components using React.js.
- **M&S Group** (June 2022 – Sept 2022): Designed and developed a Flutter application prototype with a focus on UI/UX design with Figma..

EDUCATION

June 2019 – June 2023 **BSc., Computer Science, Palestine Polytechnic University**, Palestine.

- GPA: Very Good

PROJECTS

- **Al Wasl Ventures Website (**Aug 2026 – Oct 2026**).**
  - Built the bilingual (English/Arabic) website for Al Wasl Ventures, a UAE-based platform connecting founders with funding, talent and programs across MENA.
  - Utilized: Next.js, React.js, Tailwind CSS, Vercel, Supabase.
- **HR Management Website.**
  - Worked as part of a team of 3 developers in developing an HR Management System, named **Sharkod**, as the primary developer.
  - The system is actively being deployed at sharkod.com, where it is continuously updated and improved.
  - Utilized: JavaScript, React.js, Redux-toolkit, React-router 6, CSS, Html, Axios, Node.js, Express.js, PostgreSQL, Sequelize, JWT.io.
